No Issues. Hooray!

The screenshot shows the SonarCloud web interface for the project 'analysestest-microservice'. The browser address bar shows the URL: `sonarcloud.io/project/issues?issueStatuses=OPEN%2CCONFIRMED&id=nihal_analysestest-microservice&open=AZP_qB9OHNwUBn8QLt_z`. The page has a navigation bar with 'My Projects', 'My Issues', and 'Explore'. Below this, the project path is 'nihal > analysestest-microservice > master'. A warning banner at the top right states: 'The last analysis has a warning. [See details](#)'. The main content area is titled 'Issues' and shows a 'No Issues. Hooray!' message. On the left, there are filters for 'Software Quality' (Security, Reliability, Maintainability) and 'Severity' (Blocker, High, Medium). The bottom of the page contains copyright information for SonarSource SA and various links like Terms, Pricing, Privacy, etc.

The screenshot shows the SonarCloud 'Measures' page for the project 'analysestest-microservice'. The page displays a 'Reliability Overview' chart. The chart shows 14/14 files with a reliability rating of 'A'. The chart is a horizontal bar chart where the length of the bar represents the number of bugs and the color represents the reliability rating. The legend indicates that green represents 'A', yellow represents 'B', orange represents 'C', red represents 'D', and dark red represents 'E'. The chart shows a single green bar for the 'Reliability Overview' measure. The left sidebar contains a 'Project Overview' section with a 'Reliability' dropdown set to 'Overview'. Below this, there are statistics for 'New Code', 'Bugs' (0), 'Rating' (A), and 'Remediation Effort' (0).
